## PoE Switch 07

- 
- Desktop PoE Switch
  - All-Gigabit PoE Switch
  - Hardened PoE Switch
  - Industrial PoE Switch
  - ePoE Switch

## Access Switch 14

- 
- Plastic Switch
  - Metal Switch

## Aggregation Switch 18

- 
- L2+ Switch
  - L3 Switch

## Core Switch 20

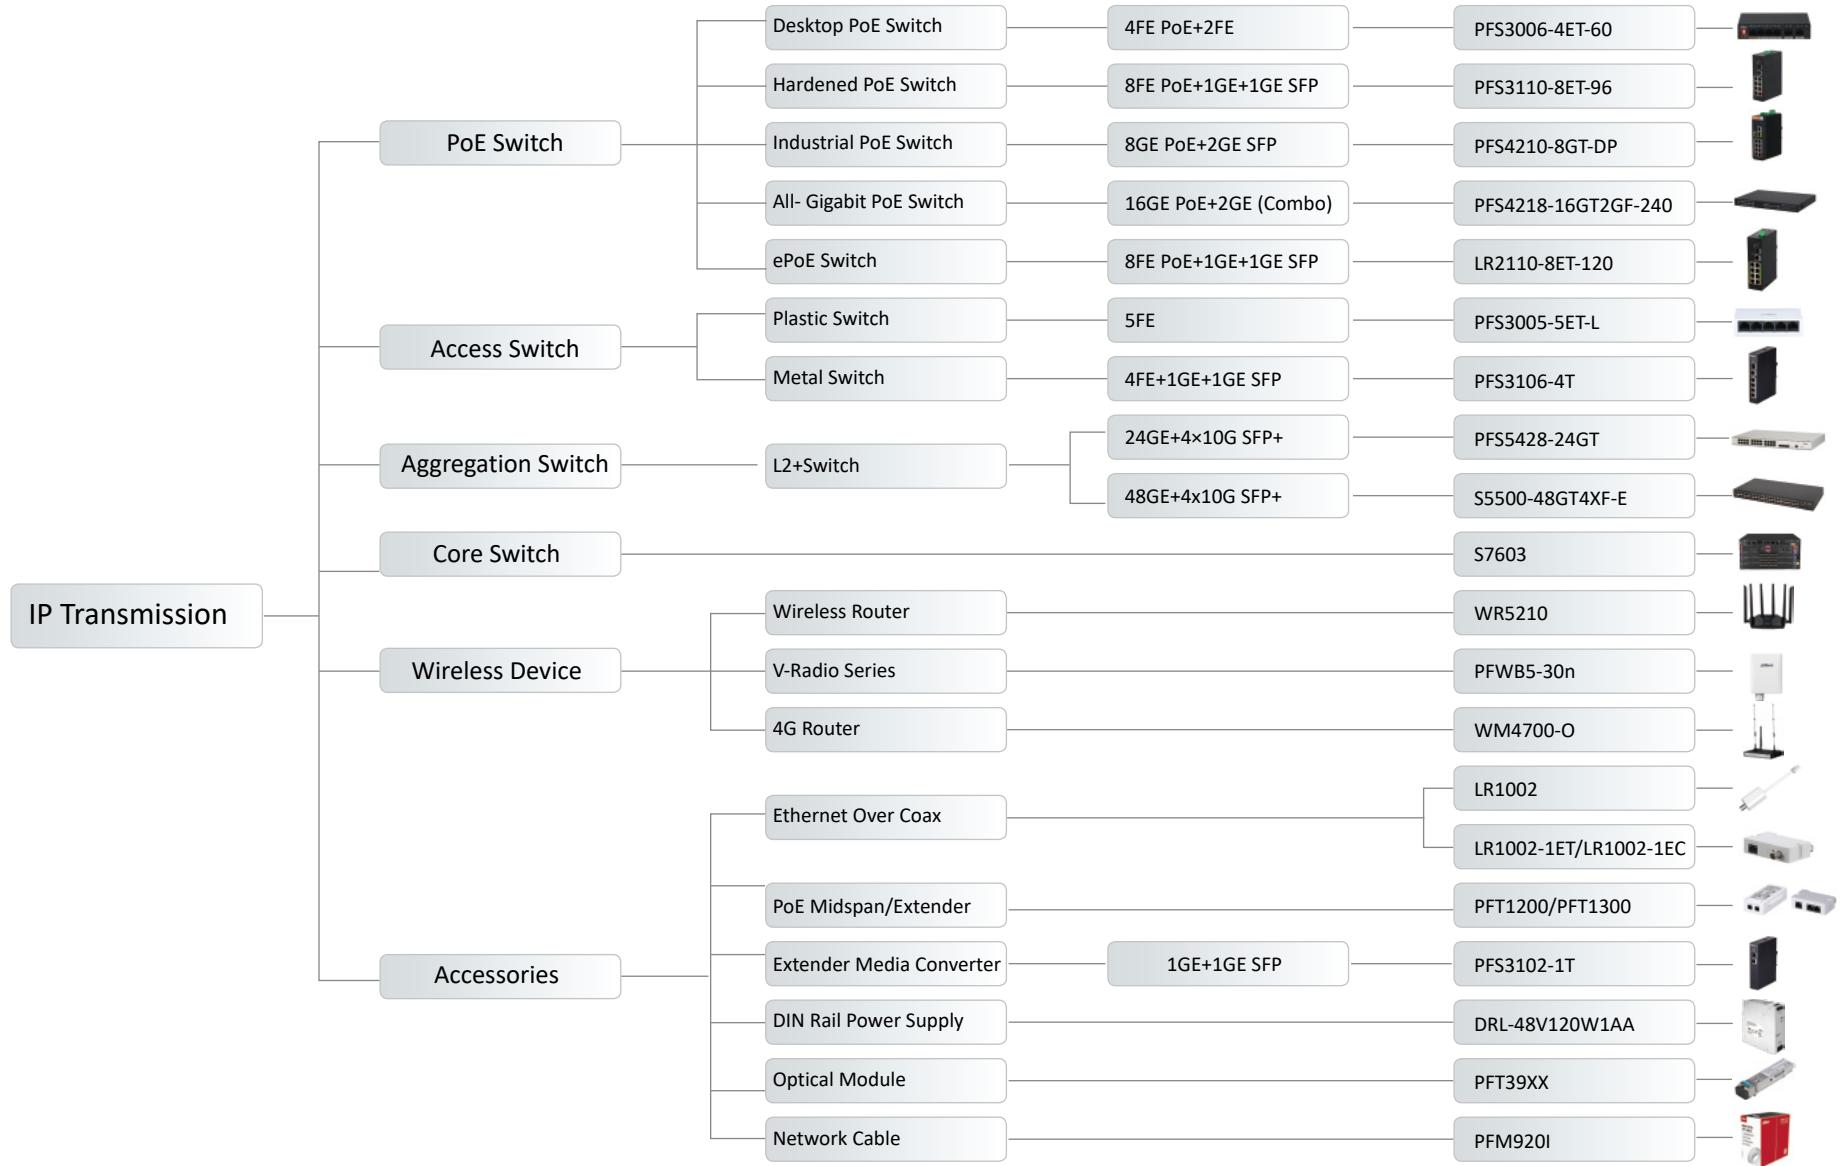

## Wireless Device 22

- 
- V-Radio Wireless Bridge Series
  - Outdoor Wileless Transmission Device
  - Indoor Wireless Transmission Device
  - Wireless Router

## Accessories 26

- 
- PoE Midspan/Extender
  - Ethernet Media Converter
  - Ethernet over Coax
  - DIN Rail Power Supply
  - Optical Module
  - Network Cable

# PRODUCT GUIDE

# What Dahua Offers

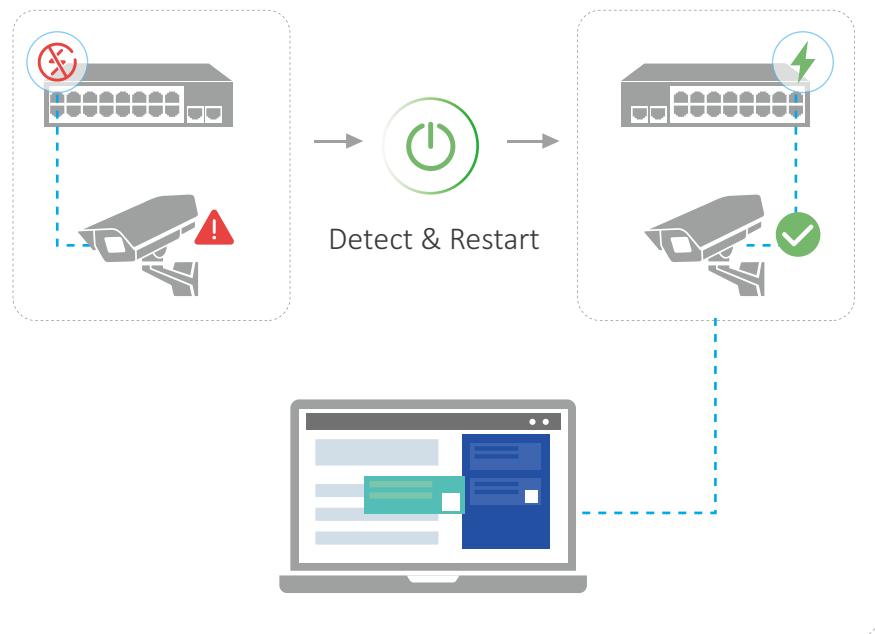

## Higher. Longer. Smarter.

Dahua PoE 2.0 Switch

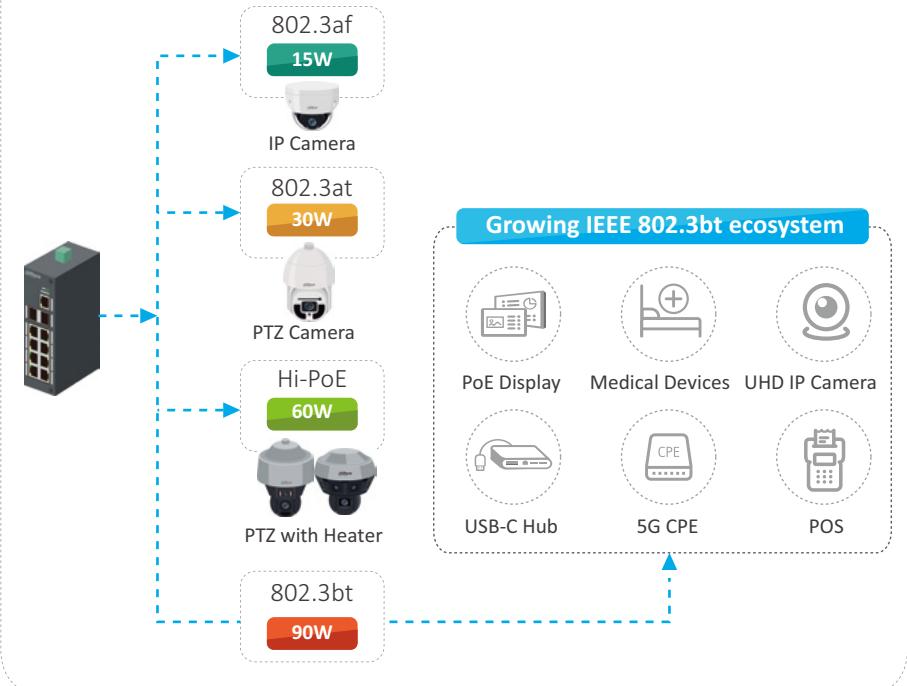

### PoE Watchdog

It offers 24/7 real-time monitoring PD (powered device) status. If a PD crashes, the switch will automatically detect the failure and restart the device. This feature can save users time and avoid the hassle of manually restarting the IPC.

### BT 90W (Red Port)

Our PoE switches are in compliance with the latest international standard IEEE 802.3bt and can provide 90W PoE output. High-power PDs are now supported by our red port PoE.

# What Dahua Offers

## Long Distance PoE

Longer distance PoE transmission offers convenient installation and saves costs for customers!

### ■ Normal Switch

### ■ Dahua Solution

## Intelligent PoE

The ports of Dahua PoE switches have different priorities. The smaller port number, the higher priority. It can guarantee power supply for VIP ports (smaller port number) when the total power consumption of PD devices exceed the PoE budget of switch.

### ■ Normal Switch

PoE Budget: 60W

20W + 20W + 20W + 20W = 80W > 60W

### ■ Dahua Switch

PoE Port: 20W + 20W + 20W ≤ 60W  
Disable PoE on some ports but keep the rest on!

## Non-Blocking Video Transmission

Considering the high data rate and jumbo frame (I frame), Dahua switch adopts larger buffer memory compared to normal switch to improve parallel transmission for large frames. Moreover, Flow Control is an another feature that can make video transmission smooth and stable.

### ■ Normal Switch

**0.25-0.5Mbit** buffer memory  
Cannot handle too many parallel data frames, causing video lag.

### ■ Dahua Switch

**1-4Mbit** buffer memory  
Powerful enough for parallel transmission of video stream.

# What Dahua Offers

## Wide Working Temperature Design

The temperature of traditional enterprise switches ranges from 0 to 40°C. If temperatures are out of range, some devices may malfunction or operate less efficiently. The Dahua switch can function normally in a wide range of extreme temperatures from -40 to 75°C.

### ■ Enterprise Level

Temperature 0-40°C

Efficiency 100%

Temperature 50°C

Efficiency 60%

### ■ Security Level

Temperature -40~75°C

Efficiency 100%

Temperature 80°C

Efficiency 70%

Temperature 90°C

Efficiency 60%

## 8-pin Power Supply

Traditional PoE only uses 4-pin (2 pairs) power supply for PD devices such as IP cameras.

Dahua PoE switch supports 8-pin power supply and offers backward compatibility with 4-pin, which can help reduce cable loss during the transmission, especially in long distance PoE transmission.

### ■ Normal PoE Switch

More cable loss

### ■ Dahua PoE Switch

Reduced cable loss, thus saving costs  
Improves compatibility with PD devices

# PoE Switch

## PoE Switch

### Higher Power & Protection

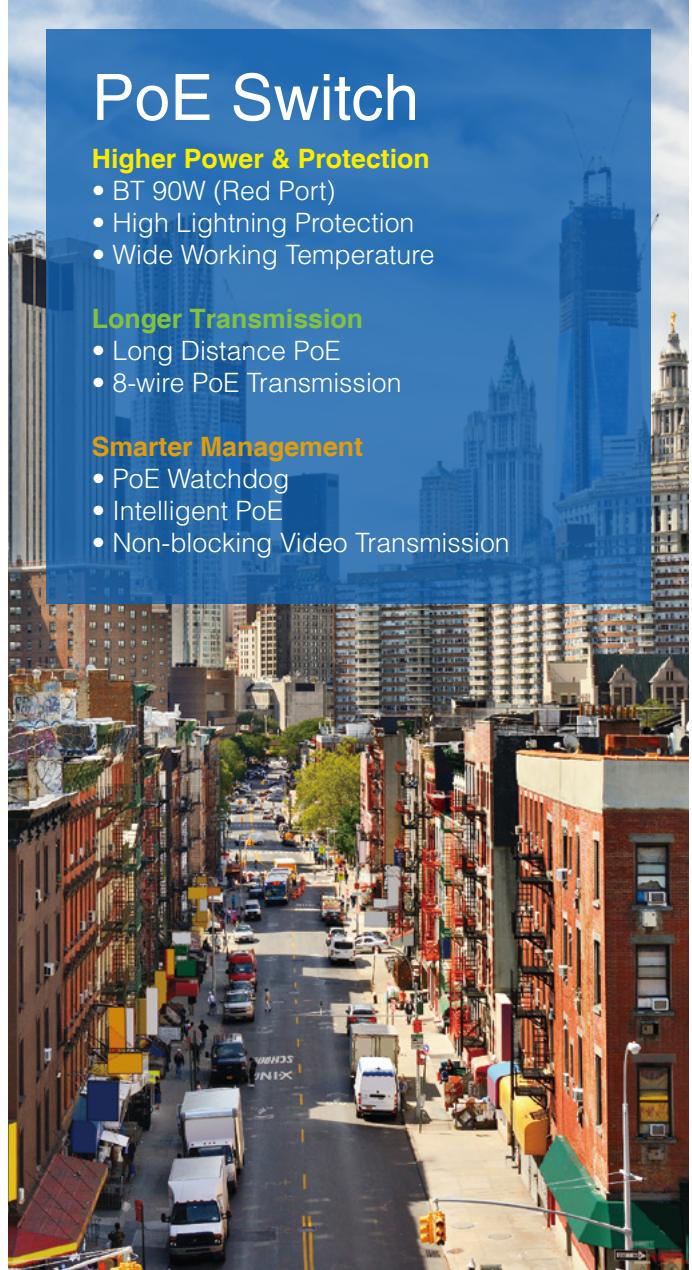

- BT 90W (Red Port)
- High Lightning Protection
- Wide Working Temperature

### Longer Transmission

- Long Distance PoE
- 8-wire PoE Transmission

### Smarter Management

- PoE Watchdog
- Intelligent PoE
- Non-blocking Video Transmission

## PoE Switch

### Desktop PoE Switch

# Platform

## Platform

- Real-time analysis of network conditions
- Intelligent display of network topology
- Integrated management of network devices
- Real-time report of network alarms

### iLinksView Network Management Platform

Model	ILS1000
Appearance	
Interface	2GE + 4USB + 1 HDMI + 1 VGA
Intelligent Analytics	Switch Statistics Port Bandwidth Occupancy Alarm Statistics Switch Run Time
Dynamic View	Device visualization Link visualization Bandwidth visualization Real-time alarm Auto-generated topology
Network Management	Display the detailed information of switches, such as name, mode, SN, IP, MAC and status.
Alarm Message	Supports IP conflict alarm, switch status alarm, terminal status alarm, loopback alarm, port congestion alarm
Lightning Protection	Common Mode 8KV Differential Mode 6KV
Working Temperature	-10°C ~+55°C (14°F~+131°F)
Dimension	155mm×135mm×30mm (6.10"×5.31"×1.18")

# Wireless Device

## Wireless Device

- Point-to-Point, Point-to-Multi-point, Back-to-Back Applications
- Up to 20 Km coverage
- TDMA technology ensures system reliability
- Easy installation and configuration
- Multi-language
- Free Management Platform - DWMS

## IP CCTV Solution

Open, standard and scalable are the three major characteristics of an IP CCTV system. Transmission product is applied as an important bridge that perfectly connects IP cameras and NVRs in applications such as shopping mall, supermarket, etc. In addition to its wide range of transmission products, Dahua also offers perfect network scalability and reliable product quality in different applications.

## Solution Features

- Open, standard and scalable
- Unified management
- PoE power supply
- Industrial-grade switch

## Topology

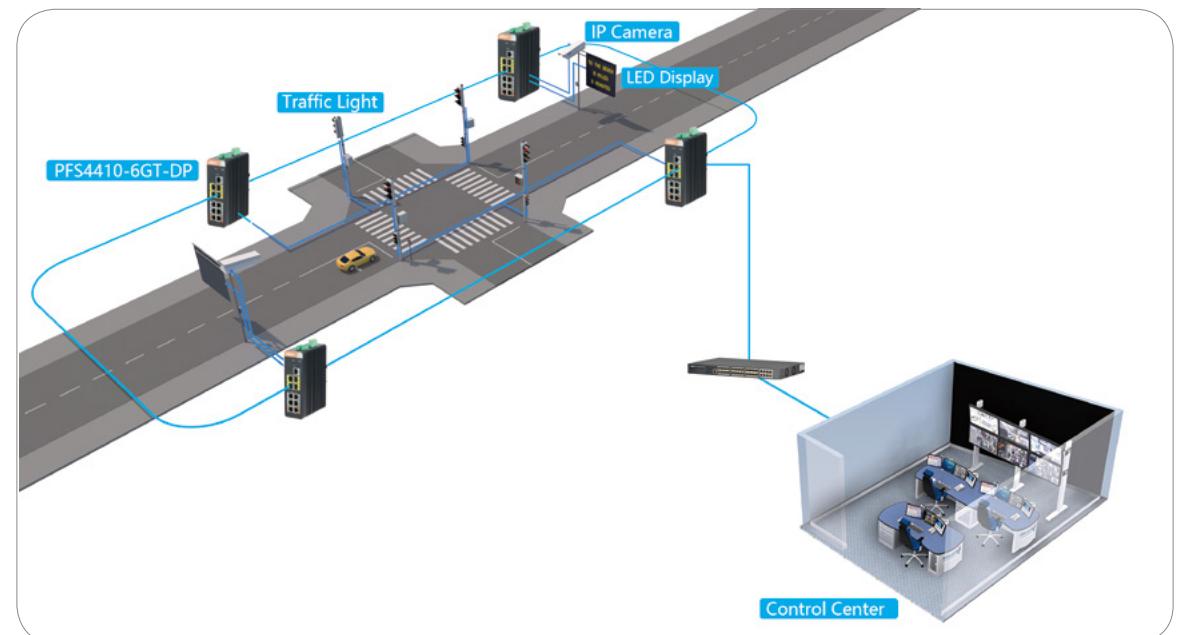

## Intelligent Transportation System

Traffic congestion and road safety are few of the challenges faced by modern transportation. To address this, the ITS (Intelligent Transportation System) was designed to achieve safer and more efficient transportation by monitoring and transmitting real-time road condition, enabling users to act accordingly in case of an unexpected incident. In addition, the Dahua industrial switch, with its powerful hardware and software features, can be applied in harsh outdoor environment, making it an ideal choice for ITS solution.

### Solution Features

- Real- time traffic monitoring
- Industrial design for outdoor use in harsh environments
- High ESD and surge protection

### Topology

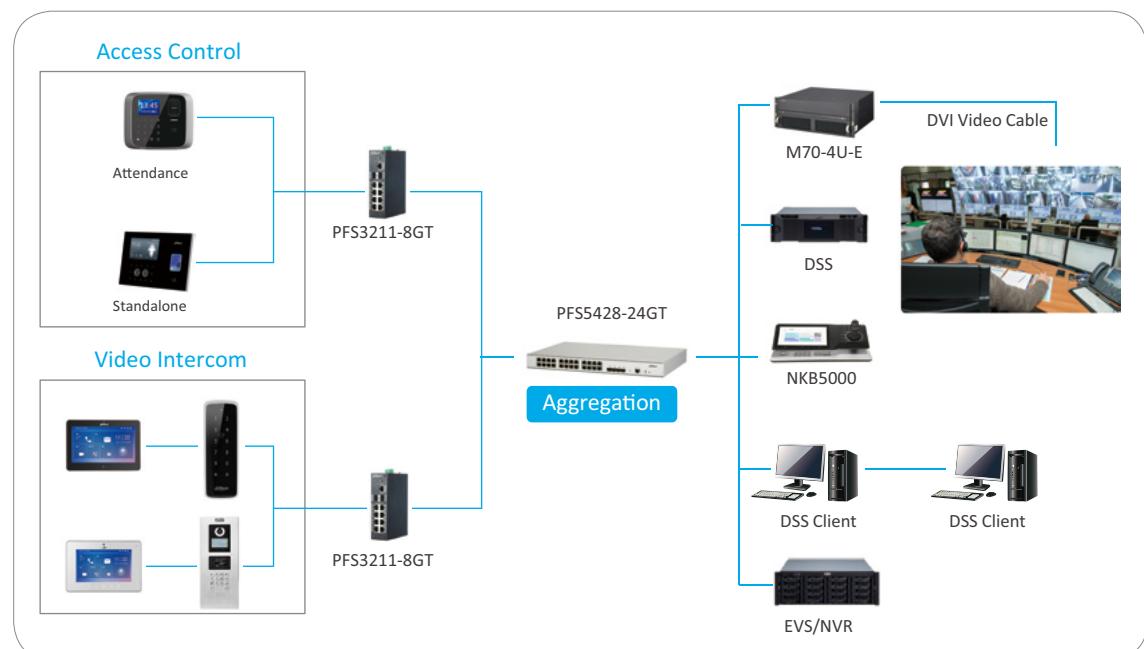

## Intelligent Building Transmission Solution

With the development of technology, video intercom has been widely used in intelligent buildings. The Dahua Video Intercom Systems provide video and voice communications between two or more locations for an enhanced security. With industry-grade design, the Dahua transmission products offer high product reliability and cost-effective performance.

### Solution Features

- Tailored transmission system for video intercom
- Open, standard and scalable
- Unified management
- Industrial-grade switch
- Long distance transmission

### Topology

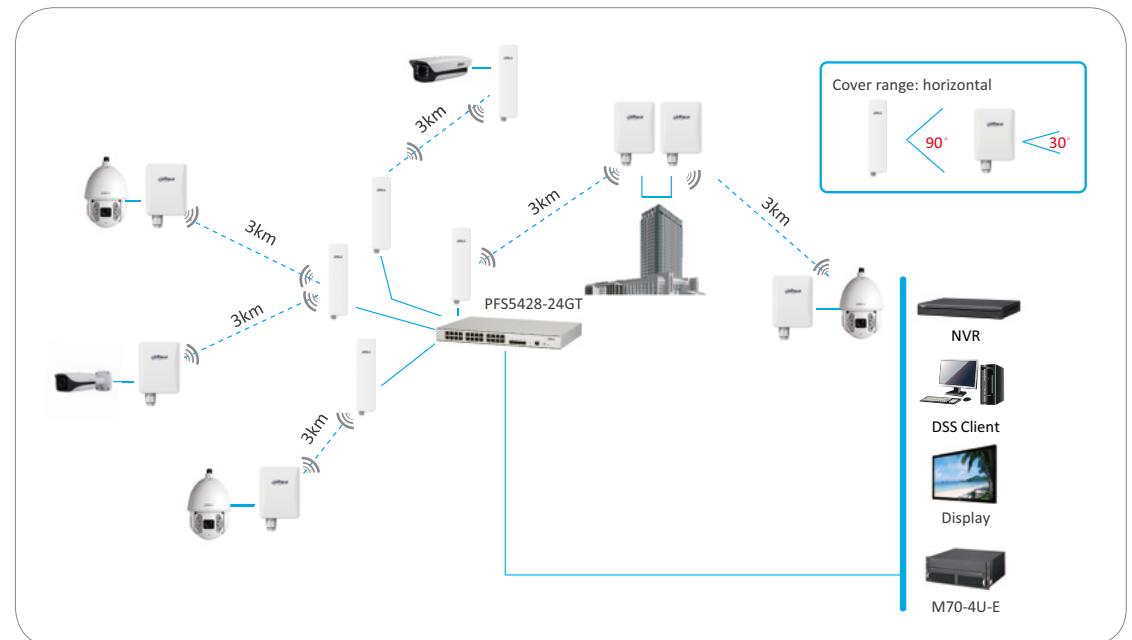

## 5G Wireless Transmission Solution

Access technology varies depending on different applications. Wireless technology is widely used in scenarios such as farms, construction sites, remote areas, etc., in order to enhance the existing cable infrastructure. The Dahua 5G wireless solution offers wide coverage, multiple topology application and easy installation to meet the different needs of customers with cost-effective performance.

### Solution Features

- Point-to-point, point-to-multi-point, back-to-back applications
- Up to 20 km coverage
- TDMA technology ensures system reliability
- Easy installation and configuration
- Dual Firmware Design
- Multi-language
- Free Management Platform- DWMS

### Topology

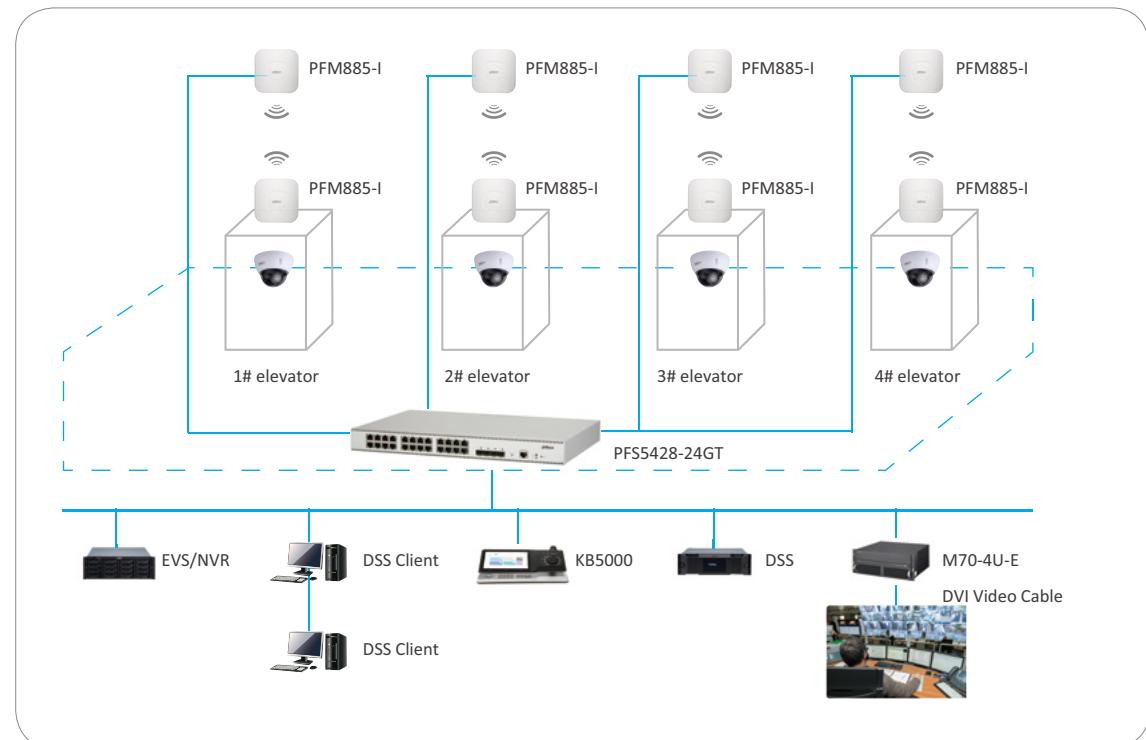

## Elevator Solution

Ensuring elevator safety is an important task for building owners. The Dahua Elevator Solution can monitor video transmission inside the elevator. The return link of data can be realized by utilizing the current property management network or installing an outdoor wireless device.

## Solution Features

- Point-to-point application
- Up to 500m distance
- TDMA technology ensures system reliability
- Easy installation and configuration

## Topology
